

At Bloom, we believe in providing our patients with relevant information that will assist in them making informed decisions. We've selected a number of web resources that will help evaluate and understand the broad spectrum that is fertility treatment. Please take some time to review the links below. Some of this information can be overwhelming, so feel free to ask us any questions you may have as a result. Happy reading!

- I. General Information about Fertility and Fertility Treatments
 - a. ASRM - http://www.reproductivefacts.org/patient_resources/
 - b. WebMD – <http://www.webmd.com/infertility-and-reproduction/tc/fertility-problems-topic-overview>
 - c. National Institute of Health (NIH) – <http://www.nichd.nih.gov/health/topics/infertility/conditioninfo/Pages/treatments-women.aspx>
